SECTION 1: IDENTIFICATION

Product Name: Stance - Stannous Fluoride Rinse Concentrate 0.63%
Catalog Numbers: Mint & Tropical Fruit - 745246310, 745246313
Product Classification: OTC Monograph Rinse Concentrate
Active Ingredient: Stannous Fluoride
Manufactured By: Elevate Oral Care
346 Pike Rd, Suite 5
West Palm Beach, FL 33411
877-866-9113
Issue Date: October 31, 2016
Supersedes Date: NEW
Product Use: Anti-Caries, hypersensitivity relief and reduction of gingival inflammation.
Dental Preventive, Fluoride Treatment
Restrictions on Use: For use only under dental supervision

SECTION 2: HAZARDS IDENTIFICATION

Hazard Classification:
Not classified as hazardous according to OSHA Hazard Communication Standard, 29 CFR 1910.1200

Label Elements/Signal Word: Not applicable
Symbols: Not applicable
Pictograms: Not applicable
Hazards not otherwise classified: None

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 4: FIRST AID MEASURES

The following first aid recommendations are based on an assumption that appropriate personal hygiene and industrial hygiene practices are followed.

Eye Contact: Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

Skin Contact: Wash with soap and water. If signs/symptoms develop, get medical attention.

Inhalation: No need for first aid is anticipated.

Ingestion: Rinse mouth, if you feel unwell, get medical attention.

Most Important symptoms and effects, both acute and delayed.
See Section 11.1. Information on toxicological effects.

Indication of any immediate medical attention and special treatment required.
SECTION 5: FIRE FIGHTING MEASURES

Extinguishing Media: In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

Special hazards arising from the substance or mixture.
None inherent in this product.

Hazardous Decomposition or By-Products
Carbon monoxide and carbon dioxide during combustion.

Special protective actions for fire fighters
No special protective actions for fire-fighters are anticipated.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions, protective equipment and emergency procedures.
Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Observe precautions from other sections.

Environmental precautions
Avoid release to the environment.

Methods and material for containment and cleaning up
No special storage requirements.

SECTION 7: HANDLING AND STORAGE

Handling: Avoid prolonged or repeated skin contact. Do not eat, drink, or smoke when using this product. Wash thoroughly after handling.

Storage: No special storage conditions or requirements.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupation exposure limits: Glycerin, TWA (as total dust): 15 mg/m3; TWA (respirable fraction): 5 mg/m3

Engineering Controls: Use in a well-ventilated area.

Eye/face Protection: Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended; Safety glasses with side shields.

Skin Protection: See section 7.1 for additional information on skin protection

Respiratory Protection: None required.

**SECTION 10: STABILITY AND REACTIVITY**

**Stability:** Stable.

**Reactivity:** This material is considered to be non reactive under normal use conditions.

**Materials and Conditions to Avoid:** None known

**Hazardous Decomposition Products:** None known

**Hazardous Polymerization:** Hazardous polymerization will not occur.

**Incompatible Materials:** None Known

**SECTION 11: TOXICOLOGY INFORMATION**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

This document has been prepared in accordance with the U.S. OSHA Hazard Communication Standard, which requires the inclusion of all known hazards of the product or ingredients regardless of the potential risk. The risks of the hazards communicated in this document may vary depending on the potential for exposure.

11.1. Information on Toxicological effects

**Signs and Symptoms of Exposure** Based on test data and/or information on the components, this material may produce the following health effects:

**Inhalation:**
This product may have a characteristic odor; however, no adverse health effects are anticipated.

**Skin Contact:**
Contact with the skin during product use is not expected to result in significant irritation.

**Eye Contact:**
Contact with the eyes during product use is not expected to result in significant irritation.

**Ingestion:**
Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

**Toxicological Data**
If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

**Acute Toxicity**

**Name - Route - Species - Value**
Overall product - Ingestion - - No data available; calculated ATE > 5,000 mg/kg
GLYCERIN - Dermal - Rabbit - LD50 estimated to be > 5,000 mg/kg
GLYCERIN - Ingestion - Rat - LD50 > 5,000 mg/kg
ATE = acute toxicity estimate

Skin Corrosion/Irritation
Name - Species - Value
GLYCERIN - Rabbit - No significant irritation

Serious Eye Damage/Irritation
Name - Species - Value
GLYCERIN - Rabbit - No significant irritation

Skin Sensitization
Name - Species - Value
GLYCERIN - Guinea pig - Not sensitizing

Respiratory Sensitization
For the component/components, either no data are currently available or the data are not sufficient for classification.

Germ Cell Mutagenicity
For the component/components, either no data are currently available or the data are not sufficient for classification.

Carcinogenicity
Name - Route - Species - Value
GLYCERIN - Ingestion - Mouse - Some positive data exist, but the data are not sufficient for classification

Reproductive Toxicity
Reproductive and/or Developmental Effects
Name - Route - Value - Species - Test Result - Exposure - Duration
GLYCERIN - Ingestion - Not toxic to female or male reproduction or development - Rat - NOAEL 2,000 mg/kg/day - 2 generation

Target Organ(s)
Specific Target Organ Toxicity - single exposure
For the component/components, either no data are currently available or the data are not sufficient for classification.

Specific Target Organ Toxicity - repeated exposure
Name Route Target Organ(s) Value Species Test Result Exposure Duration
GLYCERIN Inhalation respiratory system Some positive data exist, but the data are not sufficient for classification. Rat NOAEL 3.91 mg/l 14 days
GLYCERIN Inhalation heart | liver | kidney and/or bladder All data are negative. Rat NOAEL 3.91 mg/l 14 days
GLYCERIN Ingestion endocrine system | hematopoietic system | liver | kidney and/or bladder All data are negative. Rat NOAEL 10,000 mg/kg/day 2 years

Aspiration Hazard
For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

SECTION 12: ECOLOGICAL INFORMATION
Ecotoxicological Information: Not determined.
SECTION 13: DISPOSAL CONSIDERATION

Dispose of in compliance with governmental regulations.

Dispose of container and unused contents in accordance with local, state, and federal requirements. For EU Member States, please refer to any relevant Community provisions relating to waste. In their absence, it is useful to remind the user that national or regional provisions may be in force.

Other Information: N/A

SECTION 15: REGULATORY INFORMATION

311/312 Hazard Categories:
- Fire Hazard - No
- Pressure Hazard - No
- Reactivity Hazard - No
- Immediate Hazard - Yes
- Delayed Hazard - No

15.2. State Regulations
Contact Elevate Oral Care for more information.

15.3. Chemical Inventories
This material contains one or more substances not listed on the TSCA Inventory. Commercial use of this material is regulated by the FDA.

Contact Elevate Oral Care for more information.

15.4. International Regulations
Contact Elevate Oral Care for more information.

SECTION 16: OTHER INFORMATION

NFPA Hazard Classification
Health: 0 Flammability: 1
Instability: 0  
Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

The information presented herein was obtained from sources considered to be reliable. However, this information is provided without any warranty, expressed or implied, regarding its correctness or suitability for consumers intended use and/or application. For this and other reasons, EOC assumes no responsibility and expressly disclaims liability for loss, damage, or expense arising out of any way connected with the handling, storage, use, or disposal of this product. This SDS was expressly prepared for this product. Use the materials only as directed. If the product is used as a component in another product, the information contained within this SDS may not be applicable.
