

**Dr. Glassman Presentation
Post-Webinar Test Questions**

1. The U.S. health care system has been increasingly turning to systems that emphasize health over health care and population health outcomes over individual health outcomes.
 - a) True
 - b) False

2. According to the speaker, the main efforts required to allow the oral health industry to provide oral care for the entire population are:
 - a) Incentive systems focused on health outcomes, enhanced surgical services, and new community-focused delivery systems
 - b) Incentive systems focused on health outcomes, use of prevention and behavior science, and new community focused delivery systems
 - c) Increased payments for restorative services, use of prevention and behavior science, and new community focused delivery systems.
 - d) Increased payments for restorative services, enhanced surgical services, and new community focused delivery systems.

3. Teledentistry is confined to real time videoconferencing.
 - a) True
 - b) False

4. Critical components of a system to stay in touch with patients during the time of physical distancing are:
 - Ways to notify people that the system is available
 - Plans for deploying and operating the system
 - Ways to engage with patients in order to avoid advice, consultation, and triage
 - Ways to plan for in-person visits
 - Ways to collect all information into one record of the interactions
 - a) True
 - b) False

- 5. There are a variety of systems that can be used to create a teledentistry environment that can be used. These include signing up for fully integrated teledentistry systems (all in one) and putting together non-integrated components for various parts of a system.
 - a) True
 - b) False

 - 6. One advantage of using Teledentistry in the time of COVID-19 is that it will allow oral care providers to better stay in touch with patients and keep other components of the health care system from needing to address oral health concerns.
 - a) True
 - b) False

 - 7. Advantages of an “all-In-one” teledentistry system are that it is easier to assemble than putting together a number of separate components and it creates a full record of all components of the patient interactions.
 - a) True
 - b) False

 - 8. The American Dental Association has produced a document on coding and billing which is updated very frequently now.
 - a) True
 - b) False
