

Dr. Parrett “Proactive Interventions in a General Dentist Setting” Post-Webinar Test Questions

- Silver and Fluoride are both absorbed into dentinal tubules from 25 to 200 microns. What actions are they accomplishing?
a. Silver acts as an antibacterial agent.
b. Fluoride inhibits the enzyme enolase, which disrupts the bacteria’s metabolism and contributes to the reduction of bacteria numbers.
c. Fluoride also acts as a remineralizing agent in the hard, dental tissues that have been destroyed by acid attacks.
d. All of the above
- What are the key steps in the ‘ideal’ process for the application of Silver Diamine Fluoride (SDF)?
a. Although this may not be possible in every clinical patient interaction, ideally, we would like to isolate the area to be treated with cotton rolls and dry the teeth to be treated.
b. Apply the SDF for 1 to 2 minutes to the desired tooth surface.
c. Then allow the area to air dry without air or water applied to the surface.
d. All of the above
- Which American dentist was one of the first to use Silver Nitrate (AgNO₃) in 1920 to treat dental caries? He has come to be known as the Father of American Dentistry.
a. G. V. Black
b. D. J. Khaled
c. Steve Pardue
- Silver, as an antibacterial agent, has been documented to have been used for hundreds of years. In which country was SDF first used to arrest and treat the dental infection of dental caries?
a. Peru
b. Japan
c. United States
- The International Caries Consensus Collaboration took place in Belgium in 2016. They concluded that less invasive caries management was better as an end treatment for tooth decay. Caries tissue removal is only necessary to the extent to allow you to create long-lasting restorations. Maintaining pulpal health and marginal seal are the prime guides to allow you to accomplish this.
a. True
b. False

Name: _____ Degree: _____ Date: _____

Office Phone: _____ Email Address: _____

Office Name: _____ AGD Number: _____
(Write none if you don't have an AGD Number)

Office Street Address: _____

Office City: _____ Office State: _____ Office Zip: _____

Please email your completed test to customerservice@elevateoralcare.com for grading and recording. An AGD PACE Completion Certificate, or corrections to the answers, is needed to obtain a passing score of 80%. This certificate will be emailed to your address above within three weeks for one continuing education hour. Please call us at 877-866-9113 for any questions.
